ST. CROIX COUNTY FACTS AND HISTORY

The French were the first white people to sight the land which is now St. Croix County. In 1687 Daniel Greysolon du Luth, a French explorer and adventurer, used the Brule-St. Croix waterway as a short route from Lake Superior to the Mississippi River. A year later, Father Louis Hennepin, a priest of the Order of St. Francis, was brought into the St. Croix territory as a prisoner of the Sioux Indians. It was not however, until 1689 that Nicolas Perrot took possession of the lands of the present Upper Mississippi, St. Croix and St. Peter Valleys in the name of France. French rule ended in the Upper Mississippi Valley with the Treaty of Paris of 1763, and by the Peace of Paris of 1783 the land east of the Mississippi became part of the United States.

Although Laurient Barth, Jacques Porlier, and Charles Reaume established a fur-trading station in 1793 on the St. Croix River bordering the land which is now St. Croix County, it was not until peace was fully established with the Indians that this region could be fully settled. By a treaty signed at Washington in 1837 the Dakota or Sioux Indians ceded to the United States Government all their lands east of the Mississippi River. In the same year a treaty was made at Fort Snelling with the Chippewa or Ojibway Indians whereby they ceded to the United States all their lands east of the Mississippi to near the headwaters of the St. Croix and Chippewa Rivers.

The first settlement was made at the mouth of the Willow River in 1840 by Louis Massey and Peter J. Bouchea. In the spring of 1839 the steamer Palmyra opened the St. Croix River to trade and travel. The pine forests between the St. Croix River and Minnesota attracted interest in lumbering, and many lumber mills were built in this vicinity in the 1840's. By 1847 frame houses began to appear, and in 1849 a boarding house was opened at what is now the City of Hudson by Moses Perrin. With the establishment of the United States Land Office at Hudson in 1849, great advances were made in population. As a result the population of St. Croix County, 624 in 1850, had increased to 2,040 by 1855 and 5,388 in 1860.

In 1840 the Legislature of Wisconsin created the county of St. Croix, carrying the same name as the bordering river which derived its name from a Monsieur St. Croix, an explorer who was drowned at the mouth of the river late in the seventeenth century.

The boundaries of St. Croix County have remained constant since 1853. St. Croix County is 30 miles wide in the northern part, increasing to 33 miles in width in the central part, and then tapering down to 30 miles again at its southern extremity. It is 20 miles long and has an area of 729.45 square miles. It was not until 1851 that the County Board of Supervisors appointed Ammah Andrews to erect county buildings. This order was rescinded at a subsequent meeting, but an appropriation of \$350 was made for the construction of a county jail. No further progress was made until 1856 when a contract was again made with Ammah Andrews to build a courthouse for \$14,300. The total cost of the buildings, completed in 1856, was \$20,045. These buildings were used with minor repairs until 1900 when a new courthouse, jail and sheriff's residence were constructed at a cost of \$50,000.

As demands for more space became apparent, a new jail was erected in 1963 at a cost of \$325,000. Upon completion, the previous jail and sheriff's residence were dismantled and construction commenced on that location for a new county courthouse. Erection of the 1965 courthouse was completed in 1966 at a cost of \$725,000.00.

Another account said Father Hennepin gave this region the French name St. Croix (originally Ste Croix) which means Holy Cross. The rich, rolling prairie lands of St. Croix County were conducive to farming, and by 1881, wheat had become the main farm crop. Oats, corn, potatoes, barley, rye and hay were also raised until dairying commenced. Today St. Croix County is well known for its dairy products with milk the most important source of income for its farmers.

St. Croix County has a total of 21 towns, nine villages and three fourth-class cities, and two Wards of River Falls located in St. Croix County. The population of St. Croix County in the 1980 census by the Bureau of the Census at Washington was 43,867; in 1990 the Census showed a population of 50,261 (a 16% increase); and in 2000 the Census showed a population of 63,155 (a 20% increase).

There are four county owned parks in St. Croix County. Troy Park, located approximately 5 miles south of Hudson on the beautiful St. Croix River, offers swimming and picnic areas. Glen Hills Park located 5 miles south of Glenwood City offers swimming, boating, picnic area, fishing, a golf course, camp sites, snowmobile trails, and cross country skiing. Pine Lake Park located 4 miles north of Baldwin offers a scenic park, fishing, boating, picnic area and recreation. Homestead Park on Perch Lake is located 3 miles northwest of Burkhardt off of County Road E or County Road I and opened May 2003. St. Croix County is also proud to have Willow River State Park located within our boundaries about 5 miles east of Hudson, which offers beautiful scenery, camping, picnic grounds, water cascades, nature trails, and winter cross country ski trails. There are approximately 100 miles of designated snowmobile trails located in St. Croix County.

In November of 1991 the County Board Supervisors voted to approve construction of a new Government Center and bonding for \$11,500,000. The new Center is located on the Boody property along County Trunk UU and Carmichael Road.

June 14, 1993 was the day of occupation of our new Government Center. An Open House was held prior to the jail being occupied with over 1200 participating. The Dedication Ceremony was August 17, 1993. The jail was occupied in August, 1993. The Emergency Communications Center moved to the Government Center in April, 1995. The 1900 Courthouse was sold to David Tank who renovated it into condominium apartments.

In December of 1994 the 1965 Courthouse was sold for \$400,000 to the City of Hudson for use as a Library and other offices.

In 1998 the Ag Center was constructed in Baldwin and houses the UW-Extension, Land and Water Conservation, Farm Service Agency and NRCS offices.

Construction of the 80-bed Huber Facility began in 2003 and was completed in April 2004.

Duties:

As faculty of the University of Wisconsin Extension-Cooperative Extension Service, Extension Agents link county citizens to the University knowledge base relating to the four program areas. In this way, the programs conducted through UW-Extension benefit youth, adults, families and communities by empowering people with new knowledge, attitudes, skills and aspirations. We are committed to change, openness, diversity and accessibility .

Agriculture & Agri-Business: Purpose - to develop and conduct educational programs for farmers and agri-business people. These programs are designed to increase agricultural profitability and develop leadership in the agricultural community. The general topics of these programs include dairy and livestock production, crop production, farm business management, pest control, agricultural marketing and policy and other topics supported by research from the land grant university system.

Horticulture: Purpose - to educate people to care for their landscapes in a manner that is sensitive to the environment and society. Educational programs for professionals (landscape care services, fruit growers and vegetable farmers) teach them to select superior varieties, control pests, increase production efficiency, and improve marketing skills. Programs for the general public focus on beautifying landscapes, reducing pesticide use, improving nutrition through gardening, and strengthening families.

Family Living Education: Purpose- to provide leadership and programs in family development, consumerism, housing, finance management and leadership. Clientele served include families, youth, parents, HCE members, professionals, and community organizations and coalitions. A key role is collaborating with various community groups to design programs and infrastructure which improves the lives of children and families.

Resource: Purpose - to strengthen the ability of citizens, community leaders and local officials to identify and resolve critical community needs and issues in three broad, interdependent areas: Communities (community revitalization, local government education, demographic information, community management); Natural Resources (land use, waste management, water quality, resource management); Economic Development (small business, recreation & tourism, and community economic analysis).

4-H Youth Development: Purpose - to involve adults in assisting youth to acquire characteristics and skills which prepare them to function effectively in a high tech and global society. This includes characteristics of responsibility, judgment, wisdom, maturity and healthy self-esteem. It includes life skills such as communication, decision making, problem solving, and leadership. Program designs prepare adults involved in roles such as parents, volunteers, teachers and significant others to youth, to work with youth in ways that facilitate their acquisition of these characteristics and skills.

Nutrition Program: The St. Croix County Wisconsin Nutrition Education Program works in collaboration with local groups and organizations to address food security issues and provide food and nutrition information to county residents who are eligible for the Food Share program.
