Medigap Policies—Cost-Sharing

Some Medicare supplement insurance companies also offer two categories of Medicare cost-sharing policies.

50% Cost Sharing - You pay **50%** of the cost until you reach **\$4,960** in out-of-pocket expenses for 2016. Once you reach the limit the policy pays 100%.

25% Cost Sharing - You pay **25%** of the cost until you reach **\$2,480** in out-of-pocket expenses for 2016. Once you reach the limit the policy pays 100%.

HIGH-DEDUCTIBLE PLAN

You pay a calendar year deductible of **\$2,180**. This deductible consists of expenses that would ordinarily be paid by the policy. This includes the Medicare deductibles for Part A and Part B but does not include the separate foreign travel emergency deductible of \$250. The policy pays 100% after the deductible has been met.

Definitions

Attained Age - This means that as you age your premiums will change to meet your age range and your premiums may increase. Premiums may also increase for other reasons for example inflation.

Issue Age - Premiums are set at the age you are when you buy the policy and will not increase because you get older. Premiums may increase for other reasons for example inflation.
